OIS Registry

24 JUL 1981

MEMORANDUM FOR: Acting Special Assistant to the DDCI for Counterintelligence

FROM: Thomas H. White
Director of Information Services, DDA

SUBJECT: Proposed Amendment to Section 1-4 of E.O. 12065

Mac:

1. Attached is proposed language which could be included in the new Executive order being drafted by OGC to perhaps ameliorate the problem we discussed with respect to the automatic declassification of documents. OGC will probably want to wrestle with the words but that's OK, provided the concept is preserved.

2. As I mentioned to you, I have been trying to get OGC off the dime on this new order to replace E.O. 12065 and have not had much success. The urgency of your matter and your support in increasing the speed of this effort will be greatly appreciated.

Thanks,

Thomas H. White
